Dear Mike,

Are you attending the 2012 New York Federation of Solid Waste and Recycling Conference and Trade Show May 20-23? If so, we'd love to see you at the Lee Supply/EPG Companies Inc. [booth #162](#).

Remember to stop by the annual "Margaritaville" event Monday evening on Hospitality Row. Socialize with industry colleagues while enjoying hors-d'oeuvres, margaritas and other beverages. Hosted by Lee Supply and EPG!

EPG would like to welcome **Zirco** to our sales rep network. **Malcolm Albery** and **Barry Eil** met with the entire EPG staff this week. Zirco will represent EPG in Canada.

[Read more](#)

As always, EPG welcomes your feedback. If you have any comments or questions, feel free to contact us at info1@epgco.com.

Sincerely,
 EPG Companies Inc.
www.epgco.com

EPG Companies Inc. specializes in the manufacture of **landfill leachate pumps & controls, gas condensate pumps, remediation equipment, telemetry hardware** and **SCADA** systems and other environmental and industrial products.

Got (Landfill) Gas?

Sooner or later everyone has to deal with it. They may not even know it's a problem but sense that something isn't quite right. Don't be embarrassed to talk to us about ... your gas problem. Landfill gas can cause inaccurate and unreliable level readings and has even been known to contribute to pumps running dry or under-performing. To find out more about what can be done to compensate for vacuum and pressure in your sump or riser environment, consult an EPG Applications Specialist. Relieve the discomfort of landfill gas symptoms with a solution from EPG Companies, Inc.

Let EPG show you, first hand, the affect vacuum and pressure caused by landfill gas can have on the accuracy of a level sensor / pressure transducer.

Our Landfill Gas Affect demonstration can be seen at these upcoming industry events:

- TxSWANA-Garland, TX (The Reich Co. booth, 6/13-15)
- Sunshine Chapter's Conf.-Ponte Vedra Beach, FL (6/24-26)
- WASTECON 2012 - Washington, D.C. (8/14-16)

Call **1-800-443-7426** or email info1@epgco.com for more information.

EPG's Landfill Gas Affect Demo

Zirco - Welcome aboard!

EPG would like to welcome **Zirco** to our sales rep network. **Malcolm Albery** and **Barry Eil** met with the entire EPG staff this week. **Zirco** will represent EPG in **Canada**.

Excerpt from www.zirco.com :

ZIRCO has been providing Instrumentation and Environmental solutions to the Oil and Gas, Pulp and Paper and Petrochemical Industries since 1983.

ZIRCO specializes in emission control products like Thief Hatches, Pressure/Vacuum Relief Vents, Emergency Pressure Relief Vents, Flame Arrestors from Standard In-Line through Detonation Arrestors, as well as Flame Arrested Burners and Burner Management Systems.

Whether you are controlling an interface, determining percent water cut measurement, ppm Oil in Water measurement, Multi Phase Flow or Particle and Corrosion Monitoring in your pipelines, we have your Instrumentation Equipment Solution.

Be sure to contact them for the very best in pumps & controls for your next landfill project in Canada. Visit www.zirco.com to learn more about the other products and services they offer.

About Lee Supply

Since 1954, Lee Supply Company has been a leader in the sale and installation of pipe and pumping systems. They are the HDPE Specialists and provider of choice to many municipalities, construction companies, mines and environmental operations. Their expertise and trained staff make Lee Supply a great choice when seeking solutions for traditional applications like water distribution, sewage services, horizontal directional drilling, slip lining, and leachate and methane collection.

From renting equipment to design and installation of complete, state-of-the-art systems, they can help. Lee Supply's services include custom design, fabrication, and installation; start-up assistance; system testing and programming; training; preventative maintenance; repairs; sales, service and rental of equipment; and expedited delivery of products and parts. From the initial inquiry to the maintenance of your system after it's up and running, Lee Supply works with you.

About EPG

For over 25 years, EPG Companies Inc. has designed and manufactured pollution control systems and equipment in use worldwide in various landfill, remediation, water and waste-water and industrial applications.

With over 8,000 installations, including complete systems, sub-system integration or individual components throughout the U.S and worldwide, EPG has become the choice among thousands of environmental professionals. Our presence in over 1000 landfills is unequaled.

Our full staff of electrical and process control engineers, landfill applications specialists, and experienced manufacturing technicians work together in the manufacture of many popular products such as the patented Wheeled SurePump™ Leachate Sump Drainer, LevelMaster™ Monitoring & Control System, UL Listed Electrical Control Panels, FlowMaster Systems & Controls, E-Wave™ Wireless Switches, and Telemetry & Data Acquisition Systems along with a myriad of other landfill, remediation, water and waste-water and industrial products.

In addition to manufacturing superior, trouble-free equipment, EPG Companies conducts SWANA accredited pumps and controls schools designed to help develop knowledge, expertise and troubleshooting ability. Our classes are applicable to all who are involved with the design, installation, and maintenance of Liquid or Gas Handling Systems, Remediation Systems and/or SCADA and Data Acquisition Systems.

Experience, knowledge, innovation and field proven products combine to make EPG an industry leader.
